

EnFlux Instant Auction

Energy Supply Procurement Platform

EnFlux Instant Auction provides a unique platform for energy users who consume less than one million kilowatts per year. On a monthly basis, this equals an energy bill of around \$10,000.

EnFlux's Instant Auction platform is administered by Bid On Energy, who has managed thousands of similar auctions. Learn more at <http://bidonenergy.org/>.

These are the six steps from the introduction from your contractor, to contract closing.

- 1) Provide your contractor with your last three last months' energy bills, along with the termination date of your existing supply contract.
- 2) You will be contacted to discuss your energy needs and help plan a strategy for the auction.
- 3) Once you're ready for the auction, we will be on the line with you to guide you through the process. See the **EnFlux** Instant Auction Demonstration attached.
- 4) When the auction is complete and you've chosen a supplier, we will work with you to provide additional information and a contract will be forwarded to you in ~ *five minutes*.
- 5) Once you sign the contract, pricing is locked-in and the supplier checks it for any inaccuracies and reviews the last three months' bills for history of timely payments. Upon satisfactory completion of its review, the supplier signs the contract and sends a fully executed copy for your records.
- 6) Once the contract is signed, we continue to provide support through ongoing notifications regarding trigger dates, contract renewal, etc.

Once you are ready to obtain bids, log in (we will provide credentials) and you will see this input page where you provide only 5 simple inputs marked by the red arrows below:

Calculate Your Savings

Electricity or Gas - Availability Varies by State

Service Type **Electricity**

Effective Date **February** **Contract Start Date** **2019**

Utility **Texas-New Mexico Power** Zone **Houston** Zip Code **77008**

Rate Class **LL** Annual Usage **500000**

Existing Price/kwh **6.0** Base Rate (per kWh) **6.0** **¢** [SEARCH](#)

The sample bids below were provided in late January for a contract term starting February 1. Note the terms of *12, 24 and 30+ months* are included, with the highest savings shown over the course of each contract period. In this example, the 12 Months Plan does not result in savings because the new price is 6.1 cents per kwh, 0.1 cents per kwh higher than the existing price of 6.0 cents.

Best 12 Months Plan	Best 24 Months Plan	Best 30+ Months Plan
Fixed All in 12 months	Fixed All in 24 months	Fixed All in 59 months
Per kWh: 6.1¢	Per kWh: 5.7¢	Per kWh: 5.3¢
Est. Savings: --	Est. Savings: \$3,000	Est. Savings: \$17,500
Green: 0%	Green: 0%	Green: 0%
Details >	Details >	Details >
SIGN UP	SIGN UP	SIGN UP

You can also filter all the bids submitted based on length of term, lowest price per kwh, or maximum savings. In this example, the *lowest price per kwh* filter was selected. By sorting in this manner, you can pick the optimal combination of term and pricing to fit your needs.

Examples:

- If you want the lowest price of 5.3 cents for the *longest term* of 59 months, you would choose **entrust ENERGY**.
- If *59 months is longer than you wish*, you can choose 48 months at that same 5.3 cent price with **Green Mountain Energy**.
- If for whatever reason, you wish to avoid entering into a contract with Green Mountain Energy, you could choose **entrust ENERGY** for 48 months and pay 5.4 cents, a 0.1 cent premium.

     	FIXED ALL IN 59 MONTHS Details > Rate (kWh) 5.3¢	BILLING METHOD: SINGLE BILL Est. Savings LUL \$17,500	BANDWIDTH: 100%  Term 59
	FIXED ALL IN 3 MONTHS Details > Rate (kWh) 5.3¢	BILLING METHOD: SINGLE BILL Est. Savings LUL \$900	BANDWIDTH: 100%  Term 3
	FIXED ALL IN 48 MONTHS Details > Rate (kWh) 5.3¢	BILLING METHOD: SINGLE BILL Est. Savings LUL \$13,100	BANDWIDTH: 10%  Term 48
	FIXED ALL IN 48 MONTHS Details > Rate (kWh) 5.3¢	BILLING METHOD: SINGLE BILL Est. Savings LUL \$13,100	BANDWIDTH: 10%  Term 48
	FIXED ALL IN 48 MONTHS Details > Rate (kWh) 5.4¢	BILLING METHOD: SINGLE BILL Est. Savings LUL \$11,200	BANDWIDTH: 100%  Term 48
	FIXED ALL IN 36 MONTHS Details > Rate (kWh) 5.5¢	BILLING METHOD: SINGLE BILL Est. Savings LUL \$8,200	BANDWIDTH: 10%  Term 36

We make the process very simple, allowing your company to benefit from competitively priced energy supply.
